

# LEAN Academy

Build your in-house LEAN Academy with the support and guidance of Revive.

We are experts in performance improvement and business transformation using industry standard LEAN and Six Sigma tools and techniques.

All of our Associates are experienced professionals with a proven record of delivery.

Achieve a great return on your investment.

The financial and process improvements made through your LEAN Academy initiatives will continue to deliver benefits now and into the future.

In the last year our LEAN Academies have delivered benefits for our Customers valued at over £5M per annum.

These are tangible savings direct to your bottom line.

Your LEAN Academy will develop the next generation of leaders.

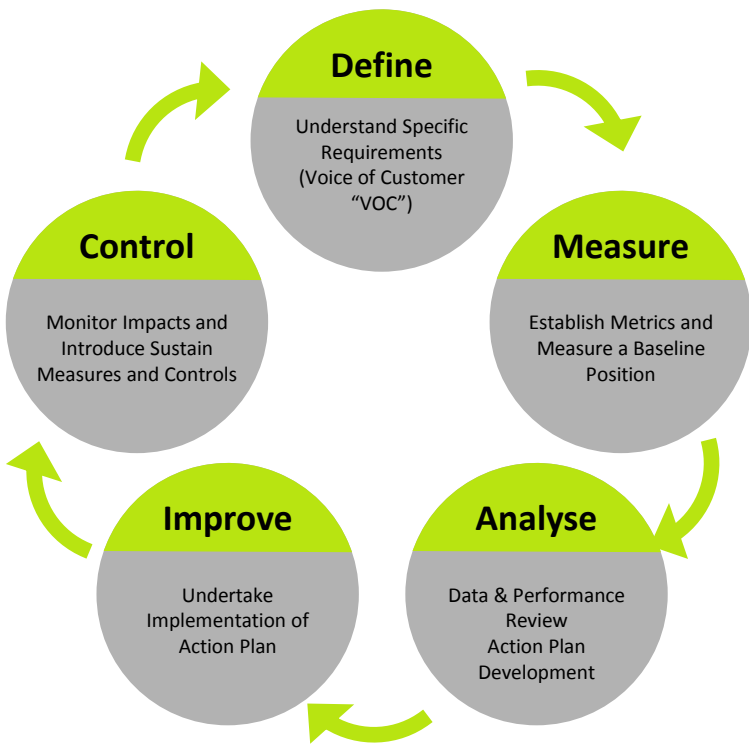

At Revive, we do not just train.

We coach, mentor and develop your team to successfully deliver projects.

To achieve certification candidates must both demonstrate their learning and deliver tangible bottom line results.

The LEAN Academy provides a great opportunity to recognise and reward talent within your business. Give your team the leadership skills and toolkit for the future.

Unleash the potential of your team.

Trainee **Green Belts** performing helicopter experiments as part of their course

*"Revive quickly integrated into our team and worked with pace and tenacity to deliver immediate and demonstrable results using their unique practical take on Lean Sigma Methodology."*  
MD, Keltbray

*"Our LEAN Academy is building the continuous improvement culture we need"*  
CEO, Yodel

Revive is a leading provider of performance improvement and business transformation services to customers all over the world

Training for the whole team, from the shop floor to the CEO.

Great leadership and staff engagement will unlock real and lasting improvements for your business.
